SUMMARY

Hi, I'm Somisetty Veera Shiva Karthik, a passionate DevOps Engineer specializing in building scalable and automated solutions. With a strong foundation in Computer Science and Engineering (B-Tech), I have developed expertise in Continuous Integration and Continuous Delivery (CI/CD) pipelines, cloud platforms, and infrastructure automation. I am certified in AWS Cloud Virtual Internship and skilled in using industry-standard tools like Jenkins, Docker, Terraform, Kubernetes, and Ansible. My focus is on transforming complex processes into efficient, automated workflows, leveraging technologies to deliver high-quality, mission-critical software.
